

Century Tree Guard:

Manufactured from a durable high density and lightweight polyethylene material. When firmly placed at base of tree, the tree guard is designed to prevent tree trunk damage from rodents, weed trimmers, and mowers. They are made with perforated vents to ensure proper ventilation to the tree trunk. The Tree Guard is designed to expand with the tree trunk as the tree grows. With an integrated tabbed connection, you can connect two or more tree guards for larger trees.

Features:

- Prevents damage from rodents, weed trimmers, and mowers
- Durable High Density Polyethylene material
- Made from 100% recycled plastic
- Convenient Tab Connections
- Perforated to insure proper ventilation
- Expands with tree growth
